Section A:

1. What is PPC? Explain with an example.

PPC (Pay-Per-Click) is an online advertising model in which an advertiser pays only when a user clicks on their ad. Ads can appear on search engines, websites, or social media platforms.

Example: Mitticool runs a Google Ads campaign for the keyword “clay water bottle online.” When a user searches this phrase and clicks Mitticool’s ad, the company pays a small fee (CPC) and the user reaches the product page.

2. PPC vs SEO

Basis	**PPC**	**SEO**
Meaning	Paid advertising where you pay each time someone clicks your ad	Optimizing a website to earn free, organic rankings in search results
Cost	You pay per click/impression	No direct payment per click, though optimization has costs
Speed	Gives immediate visibility and traffic	Takes time to build rankings and traffic
Position	Ads appear in paid/sponsored sections	Results appear in organic search listings
Control	High control over targeting, budget, keywords, and timing	Less direct control; rankings depend on search-engine algorithms
Duration	Traffic stops when the budget or campaign stops	Can produce sustained long-term traffic

Basis	PPC	SEO
Best use	Quick launches, promotions, competitive keywords, lead generation	Long-term brand visibility and cost-effective growth

PPC is a short-term paid strategy for immediate targeted traffic, while SEO is a long-term organic strategy for gradual visibility

3. Quality Score and its factors

Quality Score (QS) is a Google Ads diagnostic metric, rated from 1 to 10, that measures how relevant and useful your keyword, ad, and landing page are compared with other advertisers. A higher score generally means better ad placement and lower cost per click.

Factors affecting Quality Score:

- Expected CTR: How likely users are to click your ad when it is shown.
- Ad relevance: How closely your ad text matches the searcher's intent and keyword.
- Landing page experience: How relevant, useful, fast, easy to navigate, and trustworthy the landing page is.

Google evaluates each component as *above average*, *average*, or *below average* based on performance over the previous 90 days.

4. CTR and formula

Click-Through Rate (CTR) is the percentage of people who click your ad after seeing it. It shows how attractive and relevant your ad copy, targeting, and offer are.

$$CTR = \frac{Clicks}{Impression} \times 100$$

Example: If an ad receives 100 clicks from 5,000 impressions:

$$CTR = \frac{100}{5000} \times 100 = 2\%$$

5. Importance of Landing Page Quality in PPC

Landing page quality is important because it determines whether a visitor who clicks your ad actually converts into a lead or customer. A relevant, fast, mobile-friendly page that delivers the ad's promise improves user experience and conversion rates.

It also directly affects Quality Score through the landing-page-experience component. Better landing-page quality can improve Ad Rank, increase ad visibility, and reduce CPC, making the campaign more profitable.

A good PPC landing page should:

- Match the ad copy and keyword intent.
- Load quickly and work well on mobile.
- Have a clear headline, benefit-focused content, and a strong call to action.
- Avoid confusing navigation, excessive pop-ups, and irrelevant offers.

Section: B

Task 1: Keyword Research — Coaching Class, Rajkot

Business: Coaching Class in Rajkot, Gujarat
Target audience: Students in Classes 6–12, JEE/NEET aspirants, and parents searching for tuition or coaching nearby. Rajkot searches commonly include tuition, exam coaching, language classes, and Class 10/12 tuition.

The volumes and CPCs below are approximate planning estimates for Rajkot; exact figures should be confirmed in Google Keyword Planner using location = Rajkot.
Education/coaching CPCs in India generally fall around ₹15–₹90, depending on competition and keyword intent.

Primary Keywords

#	Primary Keyword	Approx. Monthly Search Volume	Approx. CPC
1	coaching classes in Rajkot	1,000–2,500	₹20–₹50
2	coaching institute in Rajkot	1,000–2,000	₹25–₹60
3	tuition classes in Rajkot	2,000–4,000	₹15–₹40
4	tuition near me Rajkot	1,500–3,000	₹15–₹40
5	best coaching classes in Rajkot	500–1,500	₹25–₹60
6	JEE coaching in Rajkot	1,000–2,500	₹40–₹85
7	NEET coaching in Rajkot	1,500–3,500	₹45–₹95
8	Class 10 tuition in Rajkot	1,000–2,500	₹15–₹40

#	Primary Keyword	Approx. Monthly Search Volume	Approx. CPC
9	Class 12 Science tuition in Rajkot	800–2,000	₹20–₹50
10	spoken English classes in Rajkot	1,000–2,500	₹20–₹60

Rajkot has active demand for school tuition and competitive-exam coaching, including JEE and NEET preparation.

Long-Tail Keywords

#	Long-Tail Keyword	Approx. Monthly Search Volume	Approx. CPC
1	best coaching class near me in Rajkot	300–800	₹20–₹50
2	tuition for Class 10 CBSE in Rajkot	300–800	₹15–₹40
3	Class 12 Science tuition in Rajkot with fees	200–600	₹20–₹50
4	NEET coaching in Rajkot with fees	300–800	₹45–₹95
5	JEE coaching in Rajkot for Class 11	200–600	₹40–₹85
6	best JEE coaching institute in Rajkot	300–800	₹40–₹85
7	NEET coaching near Kalawad Road Rajkot	100–400	₹45–₹95

#	Long-Tail Keyword	Approx. Monthly Search Volume	Approx. CPC
8	maths tuition for Class 10 in Rajkot	300–800	₹15–₹40
9	online tuition for Class 12 Science Rajkot	200–600	₹20–₹50
10	spoken English classes for students in Rajkot	200–600	₹20–₹60

Long-tail keywords are more specific and often attract students or parents closer to enrolment, making them useful for Google Search ads and dedicated landing pages.

Task 2:

Create a Google Search Ad

1. Business Details

- Business Name: Super Coaching Class
- Business Type: Educational Institute
- Location: Rajkot, Gujarat
- Campaign Type: Google Search Ad
- Target Audience: Students preparing for NEET and JEE examinations
- Campaign Objective: Generate student inquiries and admissions.

Task 3:

Google Ads Campaign Structure

1. Campaign Objective

A campaign objective defines the main goal of an advertising campaign. It helps businesses decide what they want to achieve through advertisements, such as increasing website traffic, generating sales, creating brand awareness, or getting more app downloads.

2. Two Ad Groups

Ad groups are collections of related advertisements and keywords within a campaign. They help organize ads according to different products, services, or customer interests.

- Ad Group 1 – Online Food Delivery: Focuses on customers searching for online food ordering and delivery services.
- Ad Group 2 – Food Offers and Discounts: Focuses on customers looking for food deals, promotional offers, and discounts.

3. Keywords with Match Types

Keywords are words or phrases that users enter into search engines to find information, products, or services. Match types determine how closely a user's search must relate to the selected keyword for an advertisement to appear.

There are three main keyword match types:

- Broad Match: Allows advertisements to appear for searches related to the keyword.
- Phrase Match: Shows advertisements for searches that include the meaning of the keyword phrase.
- Exact Match: Targets search that have the same meaning or intent as the selected keyword.

For example, an online food delivery business can use keywords such as online food delivery, "food delivery near me", and Al-Baik.

4. Negative Keywords

Negative keywords are words or phrases that prevent advertisements from appearing in irrelevant search results. They help businesses avoid unnecessary clicks and reduce advertising costs.

Examples of negative keywords include:

1. Free
2. Jobs
3. Careers
4. Internship
5. Recipes
6. Cooking classes
7. Restaurant jobs

Section: C

Task 4: Display Ad Creation

Business Name: Spice Junction Restaurant

Industry: Restaurant / Food & Dining

Campaign Goal: To increase table bookings and food orders.

Display Ad 1 — 300×250 Medium Rectangle

Headline: Taste the Difference

Description: Enjoy fresh Indian food, great offers, and cozy dining at Spice Junction.

CTA: Book Now

Image Idea: A close-up photo of hot butter chicken with naan on a wooden table.

Brand Logo Placement: Top-left corner of the ad.

Colors to Use: Deep red background, white text, and a yellow “Book Now” button.

Display Ad 2 — 728×90 Leaderboard

Headline: Craving Something Delicious?
Description: Book your table at Spice Junction and enjoy authentic flavors, offers, and fast service.
CTA: Book Now
Image Idea: A wide restaurant table with biryani, drinks, and happy customers in the background.
Brand Logo Placement: Left side of the banner.
Colors to Use: Black background, white headline, and an orange CTA button.

Targeting Plan

Targeting Method: Audience Interest Targeting

Who will see your display ad?
People aged 18–45 living in my city who are interested in food, restaurants, dining out, food delivery, cooking, and different cuisines.

Why did you choose this targeting?
I chose audience interest targeting because these people already like food and eating out. They are more likely to notice a restaurant advertisement and click on the “Book Now” button. This helps the restaurant reach potential customers who may visit or order food.

Section D – Mini Project: Complete PPC Strategy

Business Name: FitZone Gym

Business Type: Fitness Centre / Gym
Location: Pune, Maharashtra, India
Products/Services: Gym membership, personal training, strength training, cardio training, weight-loss programs, group fitness classes, and nutrition guidance.

1. Campaign Goal

The main goal of this PPC (Pay-Per-Click) campaign is to generate qualified membership leads from people searching for gyms, fitness centres, and personal trainers in Pune.

Objectives:

- Generate enquiries through phone calls, WhatsApp messages, and website enquiry forms.
- Increase awareness of FitZone Gym among people living or working nearby.
- Drive relevant traffic to the gym's landing page.
- Promote gym memberships, personal training, and free trial sessions.
- Achieve leads at a reasonable cost per lead.

Campaign Type: Google Search Ads and Google Display Ads.

Target Audience: Fitness-conscious people, working professionals, students, homemakers, and people searching for a gym or personal trainer within a 5–10 km radius of the gym.

2. Budget Split (₹10,000 Sample Budget)

The campaign will run for 30 days with a total advertising budget of ₹10,000.

Campaign	Budget	Percentage	Purpose
Google Search Ads – High-Intent Keywords	₹6,000	60%	Target people actively searching for gyms
Google Search Ads – Personal Training Keywords	₹1,500	15%	Target people looking for trainers and fitness programs
Google Display Ads – Remarketing	₹1,500	15%	Re-engage website visitors who did not enquire
Testing and Optimization	₹1,000	10%	Test new keywords, ads, locations, and landing pages
Total	₹10,000	100%	

Reason: Search Ads receive the highest budget because they target users who already have high intent, such as people searching “gym near me” or “best gym in Pune.” Display Ads help remind interested users about the gym, while the testing budget supports performance improvements.

Gym-related search keywords in India commonly fall in the ₹15–₹40 CPC range, and fitness campaigns often aim for trial bookings or calls rather than only form fills.

3. Keyword Research Table

Keyword	Match Type	Search Intent
gym near me	Phrase	High commercial/local intent
best gym in Pune	Phrase	Commercial
gym membership Pune	Phrase	Commercial

Keyword	Match Type	Search Intent
gym with personal trainer Pune	Phrase	Commercial
personal trainer near me	Phrase	Commercial
fitness centre near me	Phrase	Commercial
weight loss gym Pune	Phrase	Commercial
gym free trial Pune	Phrase	High intent
join gym Pune	Exact	Transactional
FitZone Gym Pune	Exact	Brand
ladies gym near me	Phrase	Commercial
gym monthly membership Pune	Phrase	Commercial

Negative Keywords:

1. Free workout plans
2. Home workout
3. Gym jobs
4. Gym trainer salary
5. Gym equipment price
6. Used gym equipment
7. DIY fitness
8. Online fitness course

9. Government gym
10. Gym franchise

These negative keywords help reduce irrelevant clicks and improve the relevance of the campaign. They should be reviewed before applying because some terms may be relevant to specific business offerings.

4. Google Search Ad Copy

Final URL: https://shabinaablog.blogspot.com/

Headlines:

1. FitZone Gym Pune – Join Today
2. Get Fit with Expert Trainers
3. Personal Training Available
4. Modern Gym Near You
5. Strength, Cardio & Fitness
6. Book a Free Trial Session
7. Flexible Membership Plans
8. Achieve Your Fitness Goals
9. Certified Fitness Trainers
10. Enquire About Membership Today

Descriptions:

1. Join FitZone Gym for expert training, modern equipment, cardio zones, and personalised fitness plans. Book your free trial today.
2. Looking for a gym in Pune? Get certified trainers, flexible timings, and membership plans suited to your fitness goals.
3. Achieve your fitness goals with strength training, cardio, personal training, and expert guidance. Enquire now.

4. Visit FitZone Gym in Pune and experience a clean, well-equipped fitness centre. Limited free-trial slots available.

Call to Action: Call Now / Book Free Trial

Ad Extensions:

- Callouts: Free Trial - Certified Trainers - Open 6 AM–10 PM - Cardio & Strength Zones
- Sitelinks: Membership Plans, Personal Training, Free Trial, Location
- Call Extension: Add the gym's phone number
- Location Extension: Show the gym's address and map location

5. Display Ad Concept

Ad Format: Medium Rectangle – 300 × 250 pixels.

Design Concept:

- Business Name: FITZONE GYM
- Main Headline: "Your Fitness Transformation Starts Here"
- Product/Service Focus: Gym membership and personal training
- Supporting Text: "Expert Trainers - Modern Equipment - Flexible Timings"
- Offer: "Book a Free Trial Session"
- CTA Button: "Enquire Now"
- Visual Style: Energetic and clean design using dark blue, white, and orange colours.
- Imagery: High-quality photograph of a person training with a certified trainer in a modern gym.
- Branding: Use the official FitZone Gym logo and brand colours.

Purpose: To build brand awareness and encourage interested users to visit the website or enquire about a free trial.

6. Landing Page Suggestions

The landing page should be simple, mobile-friendly, and focused on generating enquiries.

Recommended Sections:

1. Hero Section: A clear headline such as “Get Fit at Pune’s Trusted Fitness Centre” with a gym image and a “Book Free Trial” button.
2. Offer Section: Clearly display the main offer, such as “Free Trial Session + Fitness Consultation.”
3. Services Section: Show gym membership, personal training, weight-loss programs, strength training, cardio, and group classes.
4. Trainer Section: Include trainer photos, certifications, experience, and specialisations.
5. Trust Section: Show member testimonials, transformation photos, ratings, and gym facilities.
6. Contact Section: Add phone number, WhatsApp button, gym address, Google Map, timings, and enquiry form.
7. Mobile Optimization: Ensure fast loading, readable text, large buttons, and an easy-to-fill enquiry form.
8. Conversion Tracking: Track phone clicks, WhatsApp clicks, form submissions, trial bookings, and qualified enquiries.

7. Expected Results

The following figures are illustrative estimates for a ₹10,000 campaign, not guaranteed results.

Metric	**Expected Estimate**
Total Budget	₹10,000
Average Search CPC	₹20–₹35
Estimated Search Clicks	200–350

Metric	Expected Estimate
Expected Search CTR	4%–8%
Estimated Leads	15–30
Estimated Cost per Lead	₹330–₹670

Assumptions: These estimates depend on competition, keyword demand, landing-page quality, location targeting, and the strength of the free-trial offer. Actual results may be higher or lower.

Industry estimates for fitness and gym campaigns in India suggest CPCs around ₹20 and CPLs that can range from about ₹250–₹500 for well-optimized local gym campaigns, though results vary by city and competition.

Example Calculation:

- If the average CPC is ₹30, ₹10,000 will generate approximately 333 clicks.
- If 6% of visitors enquire through a call, WhatsApp message, or form, the campaign may generate about 20 leads.
- Cost per lead = ₹10,000 ÷ 20 = ₹500 per lead.

8. Optimization Strategy

1. Keyword Optimization: Review search terms regularly and pause irrelevant or expensive keywords.
2. Negative Keywords: Add unrelated searches to the negative keyword list to reduce wasted spend.
3. Ad Copy Testing: Test different headlines, descriptions, and calls to action.
4. Location Targeting: Focus on areas within 5–10 km of the gym and monitor lead quality by location.
5. Ad Schedule Optimization: Increase bids during morning and evening hours when people are more likely to search for gyms.

6. Budget Optimization: Allocate more budget to keywords and campaigns generating qualified leads at a sustainable cost.
7. Landing Page Improvements: Improve mobile speed, free-trial visibility, enquiry form simplicity, and contact-button placement.
8. Conversion Tracking: Track valid phone calls, WhatsApp enquiries, form submissions, and trial bookings instead of judging performance only by clicks.
9. Display Campaign Optimization: Review placements and exclude irrelevant websites, apps, or mobile games where appropriate.
10. Continuous Improvement: Test changes systematically and use actual campaign data to decide the next steps.

Conclusion

This PPC strategy is designed to help FitZone Gym promote its membership plans, personal training services, and free-trial offer to relevant customers in Pune. By combining Google Search Ads with Display remarketing, optimizing keywords, improving the landing page, and tracking real conversions, the gym can generate qualified enquiries and make better advertising decisions based on actual performance data.
